a FRP-RC shear
b SFRC shear
c carbonation rate
new-programme RMSE (k = 0)
programmes in the training library
d S* predicted 11.0, observed 11.2
e S* predicted 12.6, observed 12.5
f S* predicted 16.7, observed 10.1
MSE data only - MSE code imposed
predicted, p c / S - B
observed (held-out programmes)
code as published
code exponents imposed
code as REML prior
data-only hierarchical
PAKA (proposed)
boosting on code residual
mixed-effects boosting
